

Legal Practice Certificate Course

Energy Laws : Problems, Practice and Procedure

Tue.-08-April-2025

Dear Parent / Student,

Greetings from Lloyd academic community!

In contemporary times, classroom teaching for a student of law degree program remain insufficient as potential recruiters look for law graduates who are not only well versed with the Bare Acts, but who also possess adequate practical knowledge and are familiar with working of the Courts. Apart from this, fluency in communication skills, including good drafting skills is necessary for a law graduate. This all can't be covered in class-room teaching; it has become essential for every law college to take the teaching & learning beyond class-rooms and to bring in the element of understanding & application of law in

its curriculum. Without electricity / energy modern society cannot be thought of. Energy laws are one of the most important part of any legal system. We passionately create learning environment for our students through practitioners of all major areas of laws in practice and profession.

Course Plan ::

This is a 16 (sixteen hours) legal practice learning and working course. There will be 05 (five) sessions 03 hours each on teaching and learning this area of legal practice. These sessions will be conducted on Saturday / Sunday only during the class time. Then there will be 01 hour evaluation. The detail course module will be shared by the resource persons with the students in the session. This entails students to legal practice and profession.

Certificate ::

Certificate will be issues to all the participants on the basis of all the 15 hours sessions attended and passed the 01 hour evaluation session.

Distinguished Guest ::

- Ms. Poonam Sengupta, Partner JSA (Advocates & Solicitors)
