Ma’am, we welcome you to Lloyd!

Thur.-02-April-2026

Dear Parent / Student,

Greetings from Lloyd Academic Community!

Lloyd has a mission is to produce not just legal experts, but versatile leaders who can navigate an increasingly complex global landscape thus we are delighted to conduct the **VIEW (Visual Interactive Entrepreneurship Workshop)**.

This workshop is designed to help you understand that entrepreneurship is not just about starting a business, but about developing a **problem-solving mindset, decision-making ability, and real-world thinking skills**—all of which are highly relevant for law students as future professionals and leaders.

Through engaging videos, real-life case studies from grassroots women entrepreneurs, and interactive discussions, you will learn:

- How to identify real-world problems and think of practical solutions
- The importance of resilience, resourcefulness, and differentiation
- How to understand and think in terms of numbers and sustainability
- How entrepreneurial thinking can be applied in any career, including law

Importantly, this workshop will be equally valuable for those of you too who are not planning to become entrepreneurs immediately. It will help you all too build **critical workplace skills** such as analytical thinking, initiative-taking, adaptability, and solution-oriented approaches—making you more effective and impactful in your future jobs and professional roles.

Student Requirements:

- A fully charged mobile phone
- Earbuds / earphones
