Every education process is essentially a process of development of personality. Personality Development Program is designed for the newly admitted batches of BA.LL.B. (5 years), B.Com.LL.B. (5 years) and LL.B. (3 years) with the aim to equip them with *know-how* of planning and processing the growth and development of their personality with the academic life during the law school and professional life after the law school. As the students step into the professional space of legal education, this program will help them ease and bridge in the transition. Further this program will enable admitted students to make quintessential career choices after law school. These sessions will be ice-breaking sessions as this will be our new-joiner's preliminary interactions with legal educational and professionals' space.

The "Personality Development" is about enhancing and grooming one's outer and inner self to bring about a positive change to the life of a person. Lloyd has an intellectually stimulating environment which helps students develop through various modes of academics and research. At Lloyd, we try to hone their writing skills, argumentative and counselling skills so that they think critically. Personality development cell in Lloyd organizes activities based on the different type of skills which the employers are looking for when recruiting graduates like identifying the skills which are needed to take positive action to develop and add to their personal skills portfolio during the academic life at Lloyd.
